UVA WELLASSA UNIVERSITY OF SRI LANKA

Uva Wellassa University, Sri Lanka's first entrepreneurial university, was founded in 2005 with a vision that is far beyond traditional education. It rises gloriously among the misty slopes of Badulla.

The university produces globally competent graduates who bring an entrepreneurial spirit, creative thinking, and ethical responsibility to every field they enter, thanks to its distinctive focus on enhancing Sri Lanka's abundant resource base

Through knowledge, innovation, and forward-thinking leadership, UWU continues to encourage progress today, influencing both nationally and internationally.

IEEE COMPUTER SOCIETY UVA WELLASSA UNIVERSITY STUDENT BRANCH CHAPTER

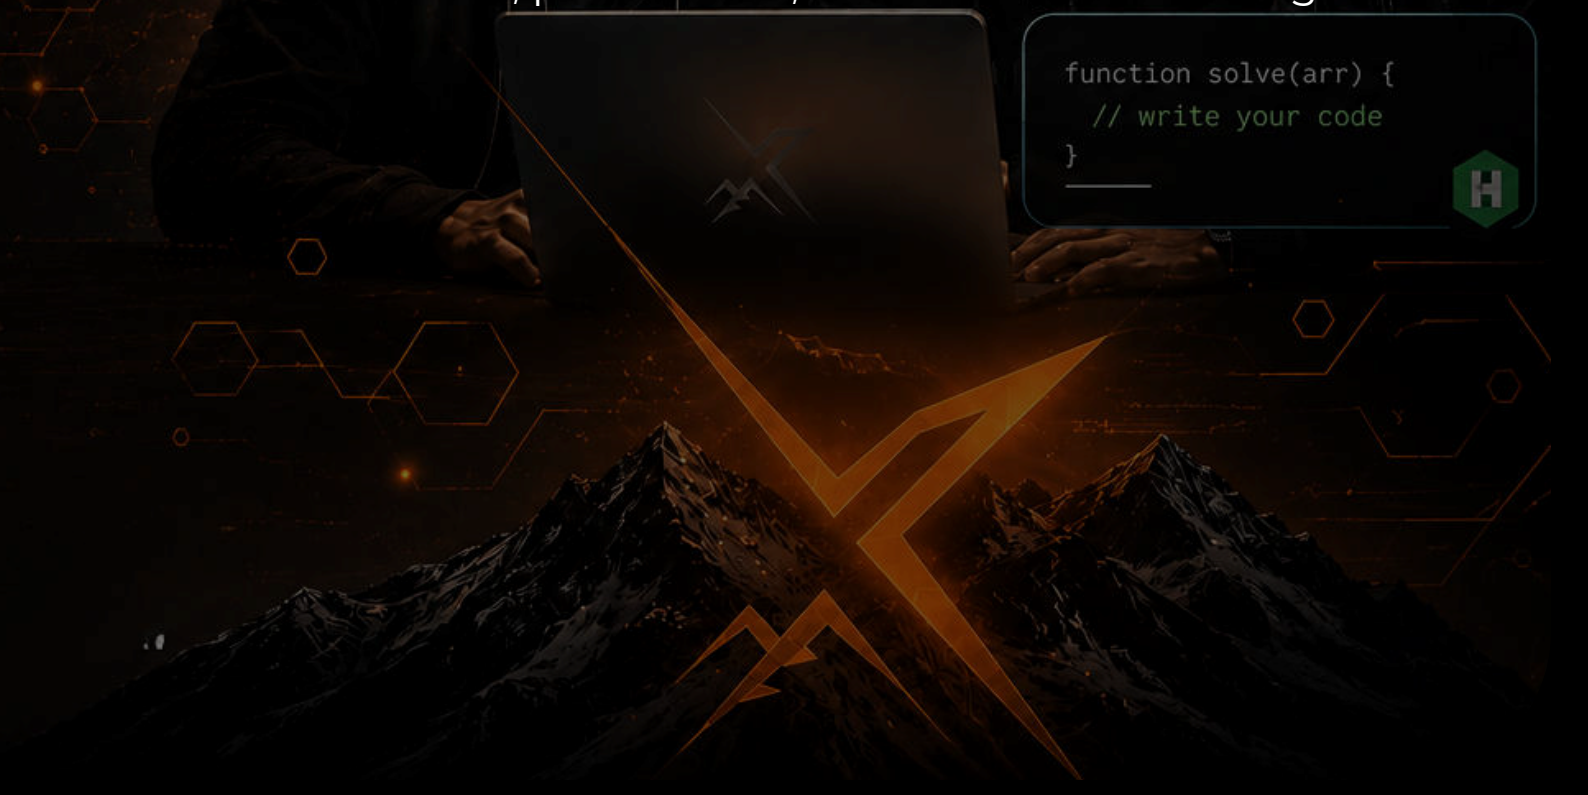

The IEEE Computer Society Uva Wellassa University Student Branch Chapter is a thriving group of enthusiastic undergraduates who are motivated by innovation, curiosity, and teamwork. As a recognized chapter under the world's largest professional association for advancing technology, it provides students with a unique platform to explore computing technologies, software engineering, and emerging digital fields while gaining hands-on experience beyond the classroom. The chapter creates an atmosphere in which students can sharpen their problem-solving abilities, cultivate their leadership skills, and interact with scholars and industry experts through workshops, seminars, hackathons, and technical projects. It serves as a link between theory and practice, enabling students to develop into creative thinkers who can make significant contributions to technical growth on a national and international level.

UVAXTREME V3
2026 PROGRAMMING COMPETITION

UvaXtreme

UvaXtreme is a group-based coding competition designed to test problem-solving and teamwork skills presented by the IEEE Computer Society Uva Wellassa University Student Branch Chapter with the purpose of empowering students' coding skills. In this exciting event, participants work in teams to solve programming challenges, creating a competitive yet enjoyable environment that sharpens both their coding abilities. By engaging in UvaXtreme, participants not only strengthen their technical skills but also develop the confidence and experience required in future academic, professional, and real-world challenges.

UVAXTREME V3 2026 PROGRAMMING COMPETITION

PREVIOUS EDITIONS

UvaXtreme has rapidly evolved from a university initiative into one of the most anticipated technical arenas in the region. For our industry partners, this is not just an event, it is a direct, high-value pipeline to recruit and engage with the next generation of top-tier software engineers and developers.

UvaXtreme V1 - 2024

- Engagement: A highly successful inaugural launch with a massive student turnout.
- Impact: Successfully launched a premium group-based coding competition designed to test problem-solving and teamwork skills.

UvaXtreme V2 - 2025

- Engagement: Achieved unprecedented growth, surpassing V1 to become our most successful edition to date.
- Impact: Massively expanded our scale, delivering unparalleled brand visibility to early corporate sponsors while preparing students for professional and real-world challenges.
